

### Mv-Fleet™ user jumps in profits.

Seaboard Marine; an ocean transportation company that provides direct, regular service between the United States and the Caribbean Basin, Central and South America; has fully implemented Mv-Fleet™ saving time, optimizing equipment repositioning and creating new opportunities as part of the company's daily work flow. This US liner operator reported a jump in profits for the first quarter and indicated that it was evaluating the purchase of additional vessel capacity... [read more](#)

**Mv-Fleet™ helps to improve empty container rotation and fill open vessel spaces.**

### VC fund Aconcagua Ventures trust in CC&S vision.

Aconcagua Ventures, a high-tech venture capital firm and co-founders of Core Security, have invested in CC&S. This investment will assist CC&S' team to realize their vision of creating a platform to assist container operating companies in the management of empty container flows and reducing costs through the 'compete and share' concept.

CC&S' MvFleet™ is emerging as the global standard for empty Equipment repositioning Communication and proving to be the most effective way to reduce costs and create business opportunities among carriers and providers.

Aconcagua Venture members created Core Security which today is the global leader in comprehensive security testing software solutions that IT executives rely on to expose vulnerabilities, measure operational risk and assure security effectiveness... [read more](#)
