

CC&S' monthly newsletter offers information about how our services work on cost reduction and creation of new revenue opportunities for container operating companies.

## Shipping Agencies welcome Mv-Fleet.

Standardization for instructing empty container moves is key for the container industry to cut costs, improve productivity, get advantages from interchange and charter agreements and increase the benefits of being part of carrier alliances. Shipping agencies are becoming aware of that and are seeing in Mv-Fleet a simpler and faster way to make it possible. Broom Group, a shipping agency serving several carriers in South America, took a step ahead and implemented Mv-Fleet this month for its daily equipment operation work-flow...

Three's a partnership in boxes. (Source: Fairplay.co.uk July 2, 2009)

France's box giant CMA CGM told Fairplay today it is teaming up with Chile's CSAV and China's CSCL on some direct shipping routes. The partnership not only enlarges the companies' coverage but also achieves "operational synergies", CMA CGM spokesperson Claire Michel told Fairplay today. The move is partly to create greater efficiency and partly a response to the volatile market, Michel told Fairplay: "We are adjusting our capacity and optimising our costs, which we believe is a pragmatic response to current trading conditions."...
